

PVC Flexible Braided Hose

Manufactured on a fully Automatic European Plant hoses can safely be used for following:

APPLICATION:

- Gardening / Watering
- Compressed Air Connection.
- Pneumatic Tools & Equipment.
- General Water Delivery.
- Medium Duty Rockdrill purpose.
- Car Washing at service stations.
- Pesticide Spraying with power driven pump.
- For conveying Chemicals, Acids & Alkalies.
- Advantages of PVC Braided Hose On Rubber Hose:
- Light in weight, so easy to handle.
- Does not crack when in use or stored for long time, lasts longer than rubber hose.

PVC smooth inner surface permits better flow of fluid.

Crystal transparency allows air locks and blockages to be quickly detected and saves costly down time.

Approx. 50% cheaper than good quality rubber hose. In PVC same Hose can be used for Air-Pneumatic - water & chemical Application.

Advantages of PVC Braided Hose on other PVC Braided Hose:

Excellent Ply adhesion, Bonding between two layer of PVC make the whole Hose as a homogenous entity resulting in greater strength to withstand higher pressure and give longer life.

Made from virgin best quality raw material. No mixing of cheaper chemicals.

Made from 1st quality, higher denier, high tenacity white synthetic yarn for reinforcement.

It is manufactured on fully Automatic European Plant.

Temperature Range:

Recommended working temperature range is between

-10° C to + 60°C.

SIZE, SPECIFICATION & COLOUR

Size Id mm	Size inch	W.P. Kg/Cm ²	B.P. Kg/Cm ²
Supreme Hoses with Twisted Yarn Colour: Crystal Clear Transparent White
